£Competitive

Closing Date 1st June 2022

Reporting to the Group Operations Technical Manager the successful candidate will be responsible for auditing all sites within the Foyle Food Group to ensure compliance to quality procedures and policies, customer standards and relevant legislative requirements. The successful candidate will work closely with production and operations managers. The successful candidate will also be required to audit all supplying companies in line with the supplier approval and external audit schedule.

Essential skills:

- Third level qualification or recognised equivalent
- Technical management experience
- Internal auditing qualification / experience
- Working knowledge of quality management systems within the red meat industry
- Working knowledge of Microsoft word and excel
- Hold a full driving licence
- Flexibility in working hours
- Ability to travel outside Northern Ireland with overnight stays required

The above criteria may be extended to facilitate shortlisting.

Duties Include

Plan, organise and conduct internal and external audit functions, presenting findings to management to ensure effective corrective and preventative action. Review corrective actions ensuring sustainable root cause analysis techniques have been adopted and closing out once satisfactory actions have been implemented.

Day to day involvement with procedural enhancement activities, effective communication of recommendations on potential improvements to the systems and procedures being employed. Provide regular updates to senior Management team.

Manage work-load ensuring all deadlines and timeframes are met in line with schedules agreed.

Passion. Quality. Respect. Success
